OBJECTIVE

Information Technology graduate seeking a Junior Front-end or Full-stack Developer position. Equipped with solid knowledge of web development principles and hands-on experience in developing responsive and user-friendly applications. Committed to delivering clean, efficient, and maintainable code while contributing effectively to a development team.

EDUCATION

2022 - 2026 (GPA: 3.26)

King Mongkut's University of Technology North Bangkok
Bachelor of Science Program in Information Technology

2019 - 2022 (GPA: 2.60)

Tha Kasem Pittaya School
Science Mathematics Program

PROJECT

Storybook Web Application (2025)

A full-stack web application for reading and managing children's storybooks. The platform allows users to register, log in, and browse available stories, while administrators can create, update, and delete story content through a dedicated management interface.

POS Web Application for Small Shop (2025)

A web-based Point of Sale (POS) system designed for small retail shops. The application allows store owners to manage products, categories, and view sales performance through interactive charts and dashboards.

Astronomy News Website (2025)

A responsive web application that provides users with the latest news and articles about astronomy, stars, and space exploration. The platform includes an admin dashboard that allows administrators to manage content, including creating, editing, and deleting news articles.

WORK EXPERIENCE

Full-Stack Developer Intern 4 Months

- Played a key role in developing and maintaining a travel insurance web application
- Implemented new features and enhancements to improve user experience and business functionality
- Troubleshoot and resolved technical issues across both Front-end and Back-end systems
